

Magento Certification Name Changes

Magento certification credentials were recently integrated into the Adobe Credentialing ecosystem. As a result the framework and names of Magento credential names have been changed to align with Adobe's credentialing framework and naming conventions. For more details, please visit [here](#).

Adobe certification exams are developed with the participation of subject matter experts worldwide, following industry standards in developing fair and valid tests. Visit our [FAQ page](#) for more information.

Are you an Adobe partner?

An official Adobe Certified Expert designation acknowledges your established expertise to help current and future business clients succeed!

Partners receive a 33% discount on all certification exam pricing. Email spphelp@adobe.com to request your discount(s).

Where to start? Check out the [Partner Learner Journey](#) from the [Adobe Solution Partner Program](#) today.
